

# Logical Bulletin

September 1, 2008

We at Logical Solutions are pleased to announce our appointment by Asprova Corporation of Tokyo Japan as All India Distributors of their world famous Planning and Scheduling Software **Asprova APS**.

The agreement was ratified during the visit of our CEO Mr. Abhay C. Deshmukh to Japan. In the 3 day visit the two companies discussed the need for bringing such wonderful product to India as the manufacturing industry faces the problem of scheduling on a daily basis.

As per the agreement Logical Solutions will not only promote the product in India but will help customers successfully implement the scheduler to integrate with ERP systems that are already in place.

**Deployed in 1,240 companies worldwide!**

Asprova APS is an Advanced Planning and Scheduling system that creates high-speed production schedules that link each segment of the factory's supply chain -- sales, manufacturing, and purchasing -- while simultaneously considering the capacities of individual machines and workers. Asprova enables manufacturers to realize true visual management by creating high-precision schedules for several months into the future, and facilitates profit increase by shortening lead times, reducing inventory, and increasing on-time deliveries.
