Customer: Momentive Performance Materials Inc. (Shanghai)

Canon Control System (Shanghai) Inc. and Asprova Corporation (Shanghai) announce that Momentive Performance Materials Inc. have agreed to implement the production scheduler Asprova APS in their Shanghai factory.

Momentive Performance Materials Inc. is a global leader in providing material solutions through silicon-based products with factories around the world. With their key system SAP/R3 already installed, by adding Asprova APS they aim to realize faster process scheduling, shorten production lead times and reduce inventory.

Asprova APS is an advanced planning and scheduling system that has been deployed at more than 1,160 sites worldwide with over 30 installations connected to ERP SAP.

<http://www.sap.com/japan/partners/directories/swpartnerslist.epx>

At Momentive Performance Materials Japan (previously GE Toshiba Silicon Co., Ltd) they already have a similar system in operation at which they have been able to demonstrate the effectiveness of such an installation.

As Asprova Corporation's business partner Canon Control System (Shanghai) Inc. is a Canon MJ Group information company, who along with their Japanese head office, have successfully installed Asprova APS at over 300 companies worldwide.

The installation this time around has been set with the condition that the system is implemented in a short period

of time so the project is progressing forward efficiently with the System Integration Company stationed at the customer's site.
